Dubai Health Authority (DHA) is pleased to present the scope of practice and clinical responsibilities of Dental Clinical Support staff, which represents a milestone towards fulfilling the DHA’s Strategic Objective to “Ensure continuous development of health and medical professionals and attract the highly qualified”. This document places emphasis on the procedures that could be performed by the licensed Dental Clinical Support healthcare professionals in the Emirate of Dubai.

The Health Regulation Department (HRD) in collaboration with subject matter experts, whose contributions have been invaluable, developed this document. HRD would like to acknowledge these healthcare professionals and to thank them for their dedication to quality in healthcare and their commitment in undertaking such a complex task.

Health Regulation Department
Dubai Health Authority
1. Introduction

Dubai Health Authority (DHA) is responsible for regulating dental practices in the Emirate of Dubai in United Arab Emirates (UAE). Scope of Practice (SOP) refers to the activities that Dental Clinical Support healthcare professionals are educated, authorized and competent to perform. Such activities are established through the legislated definition of licensed Dental Clinical Support practice, complimented by standards, limits, conditions and education, and are influenced by setting, environment and health needs of the population.

Health Regulation Department (HRD) endorses the SOP for licensed Dental Clinical Support healthcare professionals. This document should be read in conjunction with the DHA Code of Ethics and Professional Conduct. The SOP for Dental Clinical Support is neither comprehensive nor exhaustive but rather provides guidelines for practice.

2. DHA licensing titles

As per the Healthcare Professionals Qualification Requirements (PQR), DHA issues Dental Clinical Support under the following licensing titles:

2.1. Dental Assistant
2.2. Dental Hygienist
